Graz University of Technology undersigns "The European Charter for Researchers" and "The Code of Conduct for the Recruitment of Researchers"

Graz University of Technology very much welcomes the initiative of the European Commission concerning the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers.

Academic excellence is very much determined by mutual interaction, exchange and cooperation of researchers and their institutions. With significant aspects of the Charter and its Code of Conduct already implemented, we strongly support the European Commission in its efforts to enhance better mobility of researchers from within- as well as from outside the European Union.

Graz University of Technology will subsequently promote the implementation of the Charter and the Code as a vital part of its commitment to excellence.

Graz, 1st of October 2010
